

Attendees: Matt, Sean, Bailie, Phil, Mary, Natalie, Erin

- Conceptual Models
 - Bailie is cleaning up the formatting and making it readable
 - Symbolizing on the model if there is data on any of these boxes
 - Another symbol if you have thresholds set
 - Conceptual model messiness
 - Keep anything that was connected to something that people flagged, in the conceptual model
 - Natalie will shoot Bailie and email when she has the Bull Trout conceptual model edited
- Leadership team meeting
 - Present Whitebark Pine, Wolverine, Grizzly bear - bull trout would be welcome as well
 - Natalie will try to get Bull trout done by Thursday
 - For WBP, Anticipate questions on life history and what is a conservation opportunity
 - Fire on the landscape - there will be a results chain/logic model as the next step
 - You would map out where the ideal location for planting post burn would be
 - COConnectivity model
- Shrubland
 - Only 97 acres in montana, but if you include sagebrush, there is way more
 - <https://fieldguide.mt.gov/displayES.aspx?id=4>
 - Look at CEC
 - <https://www.crownmanagers.org/lcd-shrubland> this is the shrubland page that we are using
- CMP retreat
 - June 7th and 8th are the dates that the CMP is meeting, other times during that week we can meet
